

Didi Taxi Application

- Step by step screenshot guide -

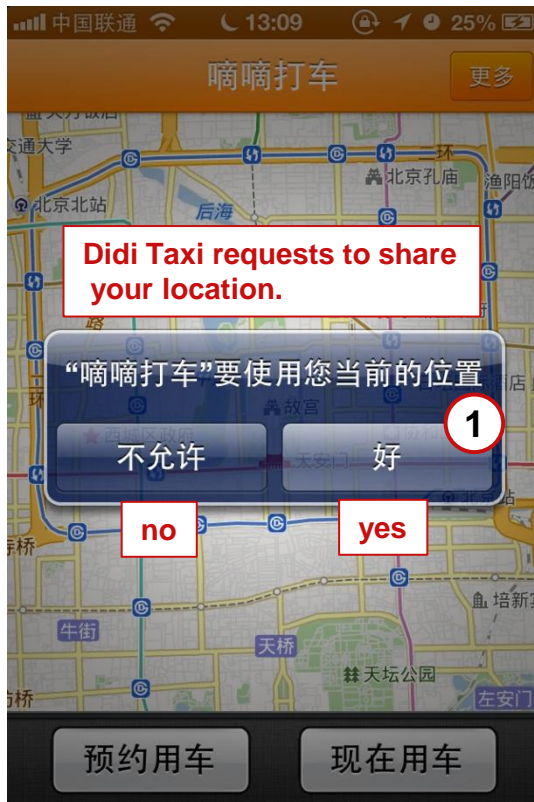

1. Download Didi App

- ① Search Didi Taxi App in App Store
“滴滴打车” (Didi Da Che)
- ② Select “Install” Button

2. Share your Location

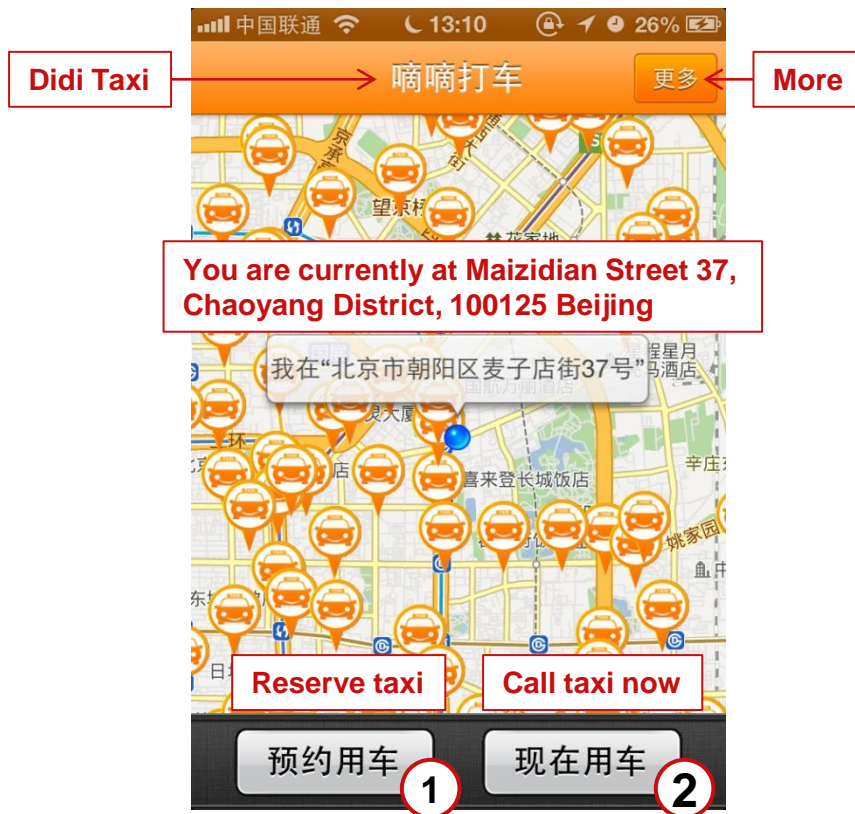

- 1 Select “yes” to share your location.

During use your current location will be updated automatically. You can switch off this feature at any time.

3. Call a Taxi – Start Page

- ① Select “Reserve taxi”, if you want to reserve a taxi or if you are not in an urgent situation and able to wait for the taxi more than 30 Minutes. If you select ① continue with page 6.
- ② Select “Call taxi now”, if you are in an urgent situation and need a taxi as soon as possible. If you select ② continue with page 6 and then 11.

4. Call a Taxi

- ① Insert your mobile number
- ② Press “Submit” button to request verification number. After hitting button, it displays remaining seconds you have to enter the verification number in ③
- ③ Insert the verification number which you have received via SMS
- ④ Press “Start” button

4. Call a Taxi – Reserve Taxi Mode I

1 Insert the time when you need the taxi and press “finish” button

4. Call a Taxi – Reserve Taxi Mode II

The screenshot shows the '预约用车' (Reserve Taxi) interface. At the top, there is a '返回' (Back) button and the title '预约用车'. Below this are three input fields: '时间' (Time) with a circled '1', '出发地' (Start) with a circled '2', and '目的地' (Destination) with a circled '3'. Below these is a '加价' (Surcharge) section with buttons for '0元', '5元', '10元', and '20元', with a circled '4' next to it. A message box below says '短途建议现在用车或加价预约用车'. At the bottom is a '提交' (Submit) button with a circled '5'. Red boxes on the left label the 'back', 'time', 'Start', 'Desti-nation', 'bid', 'Advice', and 'send' elements with arrows pointing to their respective parts in the app.

- ① Insert the time when you need the taxi and press “finish” button
- ② Insert your start location
- ③ Insert your destination
- ④ Select a bid you are willing to pay more (in addition to the actual costs)
 - Advice: For short distances it is recommended to use the “call Taxi now” mode (page 9) or offer a higher bid.
- ⑤ Press “send”

5. Wait for Answer

Status:

The signal has been sent to **130** taxi drivers, please wait with patient.

After you have sent your request, wait for an answer of a taxi driver.

In case of a positive respond the application will send you the name, telephone number and number plate of the taxi driver.

6. Call a Taxi – Call Taxi Now Mode I

back

Call taxi now

Explanation

bid

Waiting time

example

Press and speak

- Explanation: To avoid high costs for the taxi driver due to empty drives when picking up a passenger (and to increase the probability of an answer) it is recommended to offer a higher bid. In peak hours there are less vacant taxis. Therefore, it is recommended to choose to wait for 30 Minutes. During that time the taxi driver can drop his present passenger before descending to your location.
- 1 Select a bid you are willing to pay more (in addition to the actual costs)
 - 2 Select the time you are willing to wait (10 Minutes or 30 Minutes)
 - 3 Press "Press and Speak" button to record a voice message containing your current location and your destination.
Example: I am currently at the big west gate of the Beijing University, I want to go to the air port. (**Wo zai Bei da xi men, yao qu Ji chang.**) Please speak only Mandarin.

6. Call a Taxi – Call Taxi Now Mode II

- ③ The Voice message will be sent to the surrounding taxis with installed Didi Taxi App and repeated until the first taxi driver responds or your waiting time ends.
